INTRODUCTION

The Iowa Department of Transportation Office of Transportation Data, in cooperation with the Federal Highway Administration, is responsible for preparing this secondary road report. The report provides federal, state, local agencies and the general public with statistical information on the secondary road system.

Information for this report is derived from data reported by each of the 99 Iowa County Engineers. Their reports of construction which may change the road surface, length, and functional classification are current as of January 1, 2006.

The report contains three major sections: State Totals in Miles by Type of Surface, Statistical Summary, and County Statistical Summaries.

A PDF version of this report is also available at www.iowadotmaps.com/secmiles

CHANGES FOR THE 2005 REPORT

Over the past year we have been making efforts to improve the quality of our linework and our data, which required adjustments to the location of the roadway centerlines in our system. This improvement resulted in mileage changes for road segments causing differences in the state and county mileages from last year.

This report is organized with the state and county data presented on individual pages summarizing the statistical data for the state and for each county. Each page has three sections: the summary of all rural miles for the county, the summary of Farm-to-Market miles for the county and the summary of Area Service miles for the county.

Effective July 1, 2004, the jurisdiction of Farm-to-Market extensions in cities with a population under 500 transferred from the city to the county. Therefore, those Farm-to-Market extensions are now considered secondary roads and are included in the mileage summaries for secondary and Farm-to-Market roads in this report. For your convenience, we have also listed separately the mileage of those extensions in the summaries. By Code of Iowa, those roads will remain county jurisdiction until the city's population exceeds 750.
