

**FY 2025 Applications for Railroad Revolving Loan and Grant Program updated 09/04/2024**

<https://iowadot.gov/iowarail/financial-assistance/rrlg>

Project Name	County	Location	Applicant	Type of Application
A-line E.D.S. rail spur	BlackHawk	Waterloo	A-line E.D.S.	Taregted Jobs
<b>Project Description</b>	The project will construct a rail spur into an existing location. This will allow mineral oil and scrapmetal recovered from recycling electrical transformers to leave the facility by rail. This will also allow equipment, that is too large to be transported by truck, to be delivered to this facility for processing. Creating 10 new jobs and retaining 5 jobs.			
Project Name	County	Location	Applicant	Type of Application
Burlington Rail Yard and Transload Expansion	Des Moines	Burlington	Burlington Junction Railway (BJRY)	Rail Network Improvements
<b>Project Description</b>	This project will remove a 19,000 square foot pole building and construct 685 feet of new track through the removed building area utilizing the remaining asphalt floor as a laydown yard and transload.			
Project Name	County	Location	Applicant	Type of Application
Appanoose County Rail Extension	Appanoose	Centerville	Appanoose County Community Railroad	Targeted Jobs
<b>Project Description</b>	This project will construct a new rail spur and up to 6 miles of new track providing rail access to a potential agricultural processing facility in the area. Creating 100 new jobs.			
Project Name	County	Location	Applicant	Type of Application
Cedar Rapids North Yard UPRR Track Reconstruction	Linn	Cedar Rapids	City of Cedar Rapids	Targeted Jobs
<b>Project Description</b>	This project will relocate and then reconstruct the railroad tracks in the location where the new flood mitigation infrastructure (flood gate) will be constructed. This project maintains rail service through this area during construction and seeks to retain 940 jobs.			
Project Name	County	Location	Applicant	Type of Application
Heartland Co-op Greenfield Rail Loading Elevator	Wayne	Millerton	Heartland Co-op	Rail Network Improvements
<b>Project Description</b>	This project will construct a 125 car, shuttle loadout facility on the 287-acre site West of Millerton. This facility will provide area producers access to new markets via Union Pacific Railroad (UPRR).			
Project Name	County	Location	Applicant	Type of Application
Webster City Regional Rail Port Planning and Development Feasibility Study	Webster	Webster City	City of Webster City	Rail Port Planning Study
<b>Project Description</b>	This study seeks to identify and investigate both local and nonlocal businesses that would benefit from rail service. The study targets 4 different locations in the Webster City area with access to Canadian National (CN) and Union Pacific Railroad (UPRR).			
Project Name	County	Location	Applicant	Type of Application
Reid Line Dexter IA Rail Yard Improvements	Dallas	Dexter	Reid Line LLC	Rail Network Improvements
<b>Project Description</b>	This project will make improvements to an existing rail spur Southeast of Dexter. Additions include a second rail spur, under track pit unloading system, outside storage area and future space for a transload warehouse.
