
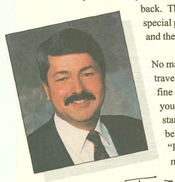
WELCOME!

Dear Iowa Traveler,

Welcome to Iowa and to our "PLACES OF QUIET BEAUTY." Iowa celebrates the 75th anniversary of its state park system in 1995. We are proud of that system and we believe you will enjoy visiting some of these unique areas as you travel. Iowa's state parks offer a special beauty at all times of the year.

On May 28, 1920, more than 5,000 people traveled to the community of Strawberry Point, Iowa, to participate in the dedication of Backbone State Park. Since that time, Iowa has dedicated more than 80 state parks and recreation areas totaling more than 55,000 acres. Each is highlighted on the 1995 Transportation Map and described on the back. These are truly special places for Iowans and their visitors.



No matter where your travels take you in our fine state, I believe you will soon understand the reasoning behind our motto, "Iowa, you make me smile."

Terry E. Branstad
Governor of Iowa

IOWA'S WELCOME CENTERS

AMANA ●
Highways 151 & 220, Main Amana

I-80 AMANA ●
I-80, Exit 225 east of Williamsburg

BLOOMFIELD ●
301 N. Washington, Bloomfield

BURLINGTON ●
400 Front Street, Burlington

DOWS ●
West Train and Depot streets, Dows

DUBUQUE ●
3rd Street & Ice Harbor, Dubuque

ELK HORN ●
4038 Main Street, Elk Horn

ELKADER ●
Highway 13, 5 miles south of Elkader

EMMETSBURG ●
1013 Broadway Street, Emmetsburg

LAMONI ●
I-35, Exit 4 and Highway 69, Lamoni

LE CLAIRE ●
900 Eagle Ridge Road, Le Claire

MISSOURI VALLEY ●
Highway 30, 3 miles east of Missouri Valley

SIOUX CITY ●
1000 Larson Park Road, Sioux City

INTERSTATE WELCOME CENTERS

CLEAR LAKE ●
I-35 south of Exit 197, Clear Lake/Mason City

DAVIS CITY ●
I-35 north of Exit 4, state line

DES MOINES ●
I-80 west of Exit 121, Des Moines

SERGEANT BLUFF ●
I-29 south of Exit 141, Sioux City

UNDERWOOD ●
I-80 north of Exit 17, Council Bluffs

VICTOR ●
I-80 east of Exit 205, west of Iowa City

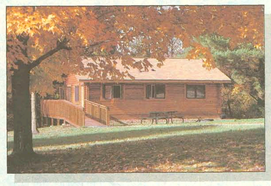
WILTON ●
I-80 west of Exit 271, between Davenport and Iowa City

● Open all year ● Open seasonally

CELEBRATE 75 YEARS OF IOWA STATE PARKS

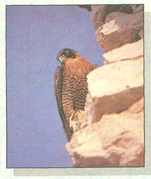
Maquoketa Caves State Park. A major feature in many state parks is the trail system which brings visitors into the heart of these beautiful areas. ▲

Referred to as the "gentle giants," the loess hills offer fabulous panoramic views and are home to distinctive plant and animal species. ▶

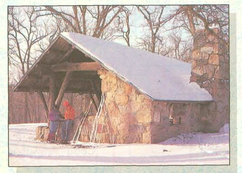


Hike the trails around the lake, fish in a cold-water trout stream, visit the Civilian Conservation Corps museum and watch the sun set over the lake while staying in a two-bedroom, heated and air-conditioned log cabin at Backbone, Iowa's oldest state park. ▲

State parks, recreation areas and forests offer 58 campgrounds with more than 5,700 campsites. Modern facilities (showers and flush toilets) are provided in 42 campgrounds. For those who wish to "get away from it all," hike-in camping opportunities can be found in four areas. ▶



Watchable Wildlife is a full-color guide describing 100 of Iowa's best wildlife viewing locations with suggestions of when and where to go to view wildlife ranging from bald eagles to butterflies. ▲



Year-round recreation opportunities are many. ▲

Constructed by the Army in 1842, Fort Atkinson once consisted of 28 buildings with a stockade wall. A "rendezvous" is held the last full weekend in September each year during which authentic buckskinners and soldiers, artisans and musicians recreate an early era in Iowa history. ▲

Planning a family reunion, wedding reception, or just a friendly get-together? Enclosed lodges and open shelters may be reserved through the park ranger. ▶

Consisting of 6,000 acres of scenic prairies, woodlands, and river and stream valleys, Brushy Creek is Iowa's largest recreation area. Construction of the dam for the 690-acre lake began in 1993 and is slated for completion in 1996 or 1997. ◀

Iowa offers more than 9,000 miles of boatable rivers and streams as well as many natural and artificial lakes. More than 1,000 public boat launch sites provide good access to these waters. ▶

Ride from park to park for a weekend getaway or a week-long adventure. Four bike routes have been developed around the state which connect numerous parks and other attractions. Detailed bike route brochures are available. ▲

Newly renovated cabins at Pine Lake are available year-round. Rental cabins are also available at eight other state parks. ▶

REAP license plates are available from individual county treasurers. A portion of REAP funding goes to park maintenance and restoration. ◀

Play on the huge wooden play structures and swim at the Big Creek and Lake Manawa beaches. Built by volunteers, the playgrounds offer hours of fun for children of all ages. ▲

Seasonal volksmarch trails have been recently established in five parks with eight additional weekend events planned in other parks. See the directory for a listing. ◀

Nearly every aspect of Cedar Rock bears the imprint of architect Frank Lloyd Wright, from the home's ground-hugging form and unique built-in furniture to upholstery, curtains and nearby boathouse. ▲

Iowa's largest butterfly garden is located in Bellevue State Park. ▲

Pine Creek grist mill at Wildcat Den State Park, built in 1838. ◀

* in thousands of acres.
■ color indicates facilities accessible to the mobility impaired.

Recreation areas operated by the Corps of Engineers are indicated by a large asterisk. These facilities have highly developed camping sites and are accessible to the handicapped. For more information about these facilities contact the Natural Resource Management Branch, Rock Island District, Corps of Engineers, Clock Tower Building, P.O. Box 2004, Rock Island, Illinois 61204-2004. Phone: 309/794-4522. For information about Rathbun Lake, contact the Corps of Engineers, Natural Resources Branch, 601 E 12th St., Room 716, Kansas City, Missouri 64106. Phone: 816/426-3896.

In addition to the parks and recreation areas listed above, the Department of Natural Resources manages more than 300 wildlife management areas as well as numerous river and lake boating access sites. The 99 county conservation boards of Iowa provide more than 1,000 areas offering a wide variety of outdoor recreation opportunities. For more information, contact the Iowa Department of Natural Resources, Wallace State Office Building, Des Moines, Iowa 50319. Phone: 515/281-5145.

A HISTORY OF PROTECTION, MANAGEMENT AND RECREATION

Backbone boathouse and beach building ▲

Around the turn of the century, famed Iowa conservationist Thomas H. Macbride called for the establishment of a system of rural parks. These "places of quiet beauty" were to be set aside so that generations of Iowans could enjoy the unique natural beauty of their woodlands, clear streams, scenic lakes, and unusual geological formations.

In 1920, Backbone State Park, named for its spine-like geological formation, was dedicated. Soon, Backbone was joined by other parks such as Dolliver, Lacey-Keosauqua and Maquoketa Caves -- each with its own natural uniqueness and beauty. In the early days, public ownership was the first priority. Picnicking and hiking were the most popular activities and facilities were few.

The Depression of the 1930s brought great change to Iowa state parks. Soon after taking office, President Franklin D. Roosevelt created a number of programs designed to provide work for Americans. The Civilian Conservation Corps (CCC) and Works Progress Administration (WPA) sent thousands of young people to work. Many served in state parks, building a variety of facilities ranging from simple benches to dams that formed lakes. Much of their handiwork can still be seen in beautiful state park limestone and timber lodges, shelters and beach buildings which are still being enjoyed 60 years later.

Civilian Conservation Corps trail bridge ▲

World War II brought an end to the CCC and WPA. During the war, state park development was put on hold. But, with war's end, America entered a new era of prosperity. The automobile and improved highways brought a boom in tourism. State parks enjoyed a new period of development as visitation soared. Camping became especially popular. In response, a number of new parks were established in the 1950s and early 1960s, complete with lakes. Geode, Viking Lake, Rock Creek and Lake Anita were among this new crop of state parks.

In the 1960s, the park system grew with establishment of several large state recreation areas, providing increased outdoor recreation opportunities. The Brushy Creek, Volga River and Pleasant Creek state recreation areas offered traditional state park activities as well as hunting and 24-hour fishing. As acquisition and development of these areas continued, efforts were underway to renovate the older state parks where aging facilities were unable to sustain increased levels of use. Redevelopment plans were prepared for Lake Manawa, Ledges, George Wyth, Maquoketa Caves and Pikes Peak state parks, and improvements followed as funding permitted.

By the 1980s, it was apparent that age and heavy use were taking their toll. Not enough funding was available to address critical projects like refurbishing scenic lodges and beach buildings, and replacing water and sewer systems. The State Park User Fee, in effect from 1986 through mid-1989, provided badly needed funding for such projects. The Resource Enhancement and Protection Fund, or REAP, of 1989 was designed to carry on the work of the user fee as well as provide funds for many types of outdoor recreation and conservation programs.

Professor Macbride's dream of a statewide system of parks offering both natural beauty and diverse outdoor recreation opportunities has been realized. In 1995, the Iowa state park system celebrates its 75th anniversary with a determination to provide continuing responsible management of state park resources and dedicated service to park visitors.

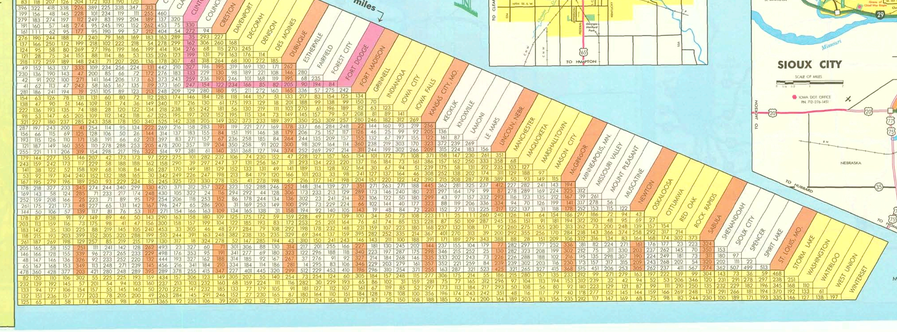
DETOUR MAP

The highways shown on this Transportation Map allow you, the traveler, to get to your destination quickly and safely. However, repairs must be made to keep these routes safe and efficient. Therefore, you may encounter road maintenance or repair operations that could affect your travel.

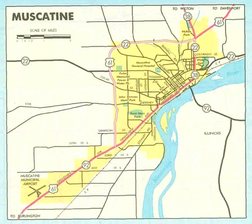
To allow you to plan a route that would avoid areas where highways are being worked on, the Iowa Department of Transportation publishes the "Iowa Detour and Road Embargo Map". This map shows which roads are being worked on; where traffic is restricted; roads closed; the approximate route of the detour or alternate route; and which roads are restricted to vehicles weighing less than the maximum allowable limits. The detour map is published biweekly from March through December.

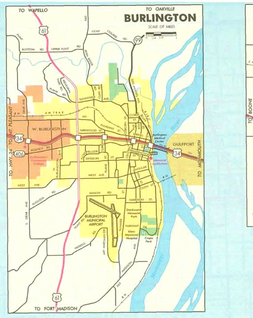
For truck and bus operators, there is also an "Iowa Bridge Embargo Map" which shows the bridges restricted to weights less than the maximum limits.

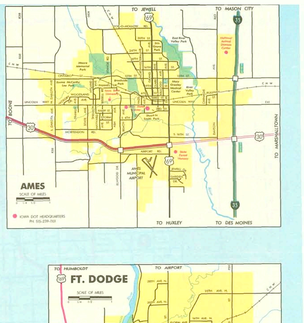
For more information about these maps, or to obtain single copies or a year's subscription, contact the Maintenance Division, Iowa Department of Transportation, 800 Lincoln Way, Ames, IA 50010, telephone 515-239-1197.



Map Layout Prepared by Transportation Data Cartographic Section







TRUCK PERMITS – A truck permit center is located at Park Fair Mall, 100 Euclid Ave, Des Moines, Ia 50313, one mile south of Interstate 80 /35 (Exit 136, south on Northeast 14th (Highway 65 /69 to Euclid Avenue, west on Euclid to 2nd Avenue. CAR TROUBLE – If you have trouble with your vehicle, drive off the roadway to an emergency area such as the shoulder, turn on the emergency flashers; raise the hood; and tie a cloth to the antenna or door handle. Passing motorists are encouraged to help, or to notify law enforcement officers.

ACCIDENTS – Notify law enforcement officers if an accident results in injuries, death or damage to property on or adjacent to the highway. If you are involved in an accident, do not leave the accident scene. Do not move injured persons unless they are in further danger; seek qualified help for them. If you are involved in the accident submit a written report to the Iowa DOT within three days. Report forms are available from local police departments, county sheriffs or the Iowa State Patrol

TAKE A SECOND AND DEVELOP A LIFETIME HABIT

Buckle Up For Life It's Our Law

We hope you are among the growing number of motorists who are complying with Iowa's seat belt and child safety seat laws. During the first year Iowa's seat belt law was in effect 157 men, women and children survived life-threatening crashes because they were buckled up. Iowa's life-saving seat belt and child safety seat laws are working. Make them work for you.

BICYCLISTS share Iowa's roadways with other vehicles. They have all the same rights and duties as drivers of motor vehicles. A head lamp and rear reflector are required for night operation. Iowa's extensive paved county road system, local city streets and special bicycle paths provide excellent route selections for the bicyclists. Bicycling the rolling Iowa countryside is fun and energy-efficient. Motorists, please have patience and share the roadway safely with your fellow taxpayer.

MILEPOSTS

Mileposts, installed at one–mile intervals along Iowa's rural primary highways, aid motorists and traffic officers in accurately locating and reporting accidents or emergencies. The markers may also be used by motorists for trip reference. Iowa's interstate interchanges are now referenced on the map by these mileposts. The milepost numbers begin at the south and west state line or route origin.
