More than 60% of commercial driver's license (CDL) applicants fail the knowledge test the first time, and many fail multiple times before passing. We developed the Official CDL Test Prep, in partnership with HLT (Higher Learning Technologies), to help you pass the **first time**.

BUILDING COMPETENCY (AND NOT JUST MEMORIZATION) PUTS BETTER TRAINED AND SAFER DRIVERS ON OUR ROADS.

ENHANCED LEARNING FEATURES

FULL-LENGTH PRACTICE TESTS

The app contains practice tests in the same subject areas as the written CDL test that is taken at the Iowa DOT. You get feedback on the areas you need to study before you take the test.

MICRO QUIZZES

Micro quizzes help if you're struggling with a specific area. If you answer a quiz question incorrectly, you get the correct answer along with information on where to locate that material so you can go back and study.

REFERENCE SECTION

A reference section gives you definitions and explains technical information in the test material so you don't have to look for it somewhere else. This feature isn't available in the physical study manual.

PROGRESS TRACKING

Save your progress in the app and study at your convenience. Use question tags to mark questions you need to review more.
