What is the intended benefit of the rule?

The “Iowa Transportation Map” is the multicolored official map that is produced by the Department to provide the motoring public with basic information on the location of cities and the highways connecting them. The rule chapter is intended to support the development and use of the Iowa Transportation Map. The rule restricts use of the map for personal or professional gain.

Is the benefit being achieved? Please provide evidence.

While rule 761—28.3(307) establishes limitations on the use of the map for purposes of personal or professional gain, the instances of these are extremely rare. Given this, and because no specific Iowa Code section authorizes this rule, the intended benefit does not warrant repromulgating this chapter.

What are the costs incurred by the public to comply with the rule?

The map is distributed without charge, resulting in no direct costs to the public.

What are the costs to the agency or any other agency to implement/enforce the rule?

Costs to the Department are negligible given that instances of restricted uses are extremely rare.

Do the costs justify the benefits achieved? Please explain.

Not applicable; both the costs and intended benefits are negligible.

Are there less restrictive alternatives to accomplish the benefit? YES NO

If YES, please list alternative(s) and provide analysis of less restrictive alternatives from other states, if applicable. If NO, please explain.

The intent of the chapter could be addressed by adding a statement to the map noting that it is not to be sold or used for purposes of personal or professional gain, and including such language on the map website at www.iowadot.gov/maps.

Does this chapter/rule(s) contain language that is obsolete, outdated, inconsistent, redundant, or unnecessary language, including instances where rule language is duplicative of statutory language? [list chapter/rule number(s) that fall under any of the above categories]
