

The following legislation of interest to the DOT was not included in the 2017 Iowa Acts because it was line-item vetoed by Governor Branstad.

[HF 643](#)

Section 20 was line-item vetoed by the governor. This section would have required the Department of Administrative Services (DAS) to conduct an inventory and study of vacant buildings owned by the state. Section 20 would have directed half of the profits from potential sales of these buildings to the Department of Cultural Affairs for the state historical building and the other half of the profits to DAS for major maintenance projects.
