

Add a Bid Estimate

This chapter will cover Adding a Bid Estimate to your project.

Adding a Bid Estimate

Review the list of Phase Numbers and select the phase to add an estimate to. If the Phase is not in the list, the user can add it by selecting “New” from the menu at the top of the screen. (See Chapter [5.2.1.1.5 Update A Bid Estimate MW](#) to update an existing bid estimate)

The screenshot shows the Masterworks Cloud interface with the 'ESTIMATE LIST' table. The 'New' button in the top toolbar is highlighted with a red box. The 'Phase Number' column in the table is also highlighted with a red box. The table contains the following data:

Estimate ID	Estimate Name	Phase Number	Description	Estimate Type

To add a new estimate, you will need to select the Phase Number, the Task, and the Estimate Type. Then save the estimate under the “More” dropdown at the top of the screen.

The screenshot shows the 'CREATE ESTIMATE' form in the Masterworks ECloud application. The form is divided into two main sections: 'PLANNING' on the left and 'CREATE ESTIMATE' on the right. The 'PLANNING' section contains a search bar and a navigation menu with categories like 'Recent Projects', 'Project Phases', 'My Tasks', 'Resource Management', 'Schedule', 'Documents', 'Budget Management', and 'Bid Estimate Information'. The 'CREATE ESTIMATE' section contains various input fields: 'Estimate ID' (183), 'Estimate Name' (Unknown Pavement - New), 'Phase Number' (NHSX-030-1(183)--3H-43), 'Task' (B02), 'TPMS ID', 'Description', 'Estimate Type' (Plan Items), 'Measurement System' (IS System), 'Standard Pay Item list' (Bid Items), 'Confidence Level' (High), 'Estimate Total in \$', 'Created by', and 'Date Created' (10/07/2024). Red boxes highlight the 'Phase Number', 'Task', and 'Estimate Type' fields.
