Available for scheduling:

Public Transit Operator Defensive Driving Training

Support a culture of defensive driving in your organization. This fast-paced, four-hour course, sponsored by the Iowa Public Transit Fellowship Program, was exclusively designed for the public transit drivers of Iowa by the Iowa-Illinois Safety Council, and is based on the National Safety Council Defensive Driving Course. Your drivers will receive a training certificate from the Iowa-Illinois Safety Council, reinforce existing driving skills, and heighten their awareness of defensive driving. New drivers and veterans up for their three-year recommended refresher will benefit from this course. Through interactive dialogue and self-motivated participation, drivers will have a chance to share their experiences, understand consequences, and benefit from the camaraderie that can only be found within the personal context of other drivers.

Address essential topics
Aggressiveness
Fatigue & drowsiness
Driver behavior & mental condition
Defensive driving techniques
Personal driving style evaluation
Emotional impairments
The Fatal Four
Driving skills inventory assessment
Vehicle maintenance/Pre-trip checks
Customized topics

Fit to your needs and your schedule -- all you supply is the training room
Facility Needs for the 4-hour course:
15 person minimum, recommended maximum 40
Space to work with workbooks

And it's free
This DDC4 course is sponsored by and directly-billed to the Iowa Public Transit
Fellowship Program
